

## Tema 11 Parte I – Material Complementario

### ***CREATE PROCEDURE (Transact-SQL)***

1. Ingrese a la siguiente dirección web.

<https://docs.microsoft.com/en-us/sql/t-sql/statements/create-procedure-transact-sql?view=sql-server-2017>

The screenshot shows the Microsoft Docs website. The top navigation bar includes 'Docs', 'Windows', 'Microsoft Azure', 'Visual Studio', 'Office', and 'More'. The breadcrumb trail is 'Docs / SQL / T-SQL / Statements'. The main title is 'CREATE PROCEDURE (Transact-SQL)'. Below the title, it says '09/05/2017 • 33 minutes to read • Contributors'. The 'THIS TOPIC APPLIES TO:' section lists 'SQL Server (starting with 2008)', 'Azure SQL Database', 'Azure SQL Data Warehouse', and 'Parallel Data Warehouse'. The main content area starts with 'Creates a Transact-SQL or common language runtime (CLR) stored procedure in SQL Server, Azure SQL Database, Azure SQL Data Warehouse and Parallel Data Warehouse. Stored procedures are similar to procedures in other programming languages in that they can:'. On the left, there is a sidebar with a search filter 'Filter by title' and a list of topics: 'PARTITION FUNCTION', 'PARTITION SCHEME', 'PROCEDURE' (highlighted), 'QUEUE', 'REMOTE SERVICE BINDING', 'RESOURCE POOL', and 'ROLE'. On the right, there is a section 'In this article' with links to 'Syntax', 'Arguments', 'Simple Examples', 'Best Practices', 'General Remarks', 'Interoperability', 'Limitations and Restrictions', 'Metadata', 'Security', and 'CREATE PROCEDURE and'.

2. En esta página encontrará los tópicos referentes a los procedimientos almacenados.
